Punchar Favorite In Holiday Grid Tilt

Punchar will be very hungry for more than turkey tomorrow when the 1953 football team, the first edition under its new head coach, Bob McIntyre, meets Johnson high of North Andover in the annual Thanksgiving day clash.

The ancient rivals will be winding up their respective seasons with Punchar ruling a slight favorite because of its better record. The Blue Devils won four and lost four and stand 22nd in the Class C schoolboy football ratings with 22 points, an average of 2.75. The North Andover team stands 43rd on the list, having won but one game while losing six, garnering only four points for an average of 0.57.

Despite the difference in the standing the preliminary records of both schools will be cast aside when the teams meet at 10:15 o'clock on the holiday. Coach George Lee has a habit of fielding a team for this annual clash that will make the Blue Devils play their best if they want to win.

Lee, who has been head coach at the North Andover school since 1944, has taken four from Punchar and lost five, so that the Red and Black, despite the shortage of material, will be out to better this mark on the holiday.

However, this first edition of Head Coach Bob McIntyre's grid team will be out to retrieve a so-so season with a clean cut victory in

Vale Sewer Bids Rejected; More Funds To Be Sought

Bids on the proposed Ballardvale sewer when opened at the board of public works office last week were found to be much higher than the

\$80,000 voted last March for the project. As a result all were rejected and additional funds for the work will be requested at the town meeting next March.

In discussing the bids Sidney P. White, chairman of the board of public works said:

"The board of public works opened bids Nov. 17 for the three contracts which cover the proposed Ballardvale sewerage system in its entirety. Thirty-four contractors submitted proposals on the different phases of the work.

"Fourteen bids on the treatment plant ranged from a low of \$51,331 to a high of \$109,000.

Santa Claus Parade To Open Festive Christmas Program

Plan Union Service For Thanksgiving

The Andover Council of Churches will sponsor the annual union Thanksgiving Service on Thursday at 9 a.m. in Christ church.

The Rev. John Moses, pastor of Christ church, will have charge of the service. The Rev. Frederick Noss, pastor of the South church will read the governor's annual proclamation. The Rev. Levering Reynolds Jr., Th. D., of the Free Christian church will read Psalm 145 for the Scriptural lesson. The preacher for this service will be the Rev. Roy E. Nelson Jr., pastor of the Andover Baptist church.

(Continued from Page 12)

The Andover Board of Trade is going ahead with plans for a festive Christmas season designed to surpass those of previous years.

Backed by the cooperation of almost 100 percent of the town's merchants they will have the business area illuminated with Christmas lights which will be turned on following a big Santa Claus parade. Saturday, Dec. 5 is the date tentatively set for this attraction.

Through a canvass conducted last week by James R. Mosher, the new paid secretary of the organization, sufficient cash and pledges have been obtained to warrant erection of the Christmas lights which in the past two seasons have spread their varicolored hues over the square and the business section of Main street.

Mr. Mosher's solicitation will continue until all prospective participants in the board's Christmas plans have been reached.

Local Man Injured In Auto Accident

Following an automobile accident on South Union street in Lawrence last Thursday night, Paul D. Carey of Summer st., was treated at the Lawrence General hospital for a laceration on his lower lip and questionable fractured ribs. Charles Kolofos of Haverhill street, Lawrence, was to be checked by a physician, police reported.

Lawrence Patrolmen Enos H. Farrington and Louis A. Rivet investigated and reported both cars were going in a southerly direction at the time of the accident. Kolofos had been parked on the west side of the street and started up without lights, Carey told police, adding that he was unable to avoid the crash though he swung his car to the left.

Chemicals Work For U. S. Farmer

Agricultural chemicals are estimated to be adding about one billion dollars a year to farm income by maintaining fertility of the land and controlling insects, the Manufacturing Chemists Association reports.

The association says that last year farmers bought more than \$1,500,000,000 worth of chemicals. This included 23,000,000 tons of fertilizers; 250,000,000 pounds of insect killers; 50,000,000 pounds of weed killers; and a growing volume of seed disinfectants, growth stimulants, soil conditioning chemicals and fungicides.

The Manufacturing Chemists Association estimates that fertilizer alone increased national harvests by 20 percent and says that the

farmer is reinvesting six cents out of every crop dollar to keep up the fertility of his land. For every dime spent on pesticides, the chemical organization reports, one dollar is returned.

Of all crops, cotton owes most to

chemicals. Fertilization boosts production, chemicals reduce weed growth, new insecticides combat the boll weevil and other pests, and chemical defoliants remove leaves and facilitate the work of cotton harvesting machines.

Firemen Battle Large Brush Fire

The Andover fire department last Saturday and Sunday battled a huge brush fire which in the two days burned over about 150 acres off Woburn street at the Andover-Wilmington line.

First called to the scene Saturday afternoon the local department got the aid of the Wilmington department when it was seen that part of the fire was in that town.

After battling the blaze until after 7 p.m., the local department returned to quarters only to be called back again by an alarm from box 231 at 2.35 Sunday morning. At 2.59 a.m., a still alarm was sounded for additional help at the blaze.

During the two days assistance was also summoned from North Reading, North Wilmington and Tewksbury.

VALE SEWER

BIDS REJECTED

(Continued from Page One)

"Twenty-one bids on the trunk sewer and special crossings were from a low of \$15,254.30 to a high of \$44,304. Twenty-six bids on the street laterals ranged from \$51,588.50 to \$130,779.50.

"The combination of low bids results in the amount of \$118,173.80 which is much greater than the amount appropriated at the town meeting of March 1953.

"On Nov. 19 a joint meeting of representatives of the Board of selectmen, board of health, finance committee, special committee on water and sewerage, and the Andover Taxpayers' association was held. The board of public works presented a complete summary of bids to this group for their use in discussing and determining the advisability of proceeding with only a portion of the work. On the basis of the proposals received, only the work under contracts 1 and 2 could be done with the money available.

"The consensus of this representative group was that it would be contrary to the intent of the town meeting vote to proceed with only a part of the work and to hope that the remainder of the necessary funds would be forthcoming at the next town meeting.

"Accordingly, the group passed a unanimous resolution that all bids should be rejected at this time, and that a request for the necessary additional funds be placed on the warrant of the 1954 annual town meeting.

"In the meantime the consulting engineer will be instructed to revise his plans with the object of eliminating any non-essential cost items which may effect a reduction in price at the next bidding.

"It is the intent of the board of public works to have the plans and specifications in complete readiness for an early advertising and letting soon after town meeting action is known."

HOLDING FORTH THE WORD OF LIFE

"Swap the
Bill of Rights
... for what?"

THE COMMUNISTS openly HATE our American Bill of Rights. They would like to replace it with ideas of their own.

What would we get in place of freedom of religion?

... No religion.

In place of freedom of speech, and of the press?

... Gags, and government-controlled newspapers.

In place of freedom from cruel and unusual punishment?

... "Water cures" and "truth serums."

In place of the right to a fair trial?

... The mockery of justice.

Before we ever give away even the smallest bit of our freedom, let's take a long, long look at what we're likely to get in exchange. That's the real test.

A vital cornerstone of America's economic freedom is the independent bank — with bank services designed to afford maximum convenience, protection and economy in money matters. We invite you to make full use of our services.

Let Us Be Thankful

It was after suffering two years of famine that the survivors of the early "Plimoth" colony reaped a generous harvest for which they set aside a day of great rejoicing to give thanks to Divine Providence for crowning their efforts with plenty.

Today, more than 300 years later, we in a free country have many things for which to be thankful. In a land of plenty we have on every hand evidences of the riches with which we have been blessed, spiritual and material.

It is primarily with material things that our thanks are associated in the observance of Thanksgiving day, yet with our knowledge of conditions in other parts of the world we should not forget that we live in a country where we enjoy freedom of action, freedom of thought and freedom of worship.

As we gather in family groups on this Thanksgiving day we can discuss any matters we choose and openly state our opinion of things, nationally or locally, without fear of interference from secret police.

Pause a few minutes on this Thanksgiving day to recall the many blessings bestowed upon this country of ours, upon our state, our community, ourselves. Truly, we will find, we have many reasons to offer our sincere thanks to Almighty God for His great goodness and for His numerous bounties in which we share.

The History Of Liberty

"Liberty has never come from the government . . . The history of liberty is the history of the limitations of governmental power, not the increase of it."

That was said more than 40 years ago by one of the greatest students of government who ever sat in the White House - Woodrow Wilson. And the warning he issued is a hundred times more important and timely now than it was then.

The overriding lesson that modern history teaches is that when we give government virtually unlimited power, freedom dies - and oppression and tyranny take its place.

One reason for the incredible cost of government is that too many of us want economy for the other fellow only - and never in matters that affect us. - Industrial News Review.

In these days of charge and countercharge real Americans should not be afraid to stand up and be counted.

In Vermont, so the report goes, people don't talk unless they can improve on silence.

SCIENCE and your Health

HIGH STANDARDS IN CHEMISTRY

by Science Features

One of the major problems facing scientists who search for new chemical weapons against disease is to find drugs which will be harmful to disease organisms - but harmless to the human body.

To maintain these high standards, every drug is thoroughly tested in the laboratory before being released for use in humans. It must not cause any harmful "side-effects," even when given for a prolonged period of time and in doses sufficient to combat the germs.

One indication of how successful such efforts have been was shown in a recent report by two Army physicians who treated 70 tuberculosis patients with massive doses of terramycin for four months. The patients were given five grams of the antibiotic daily, instead of the usual one gram dose.

Reporting on the patients' response to the treatment, the physicians said that none of the patients had to have the drug discontinued during the four months - and noted that such heavy doses of terramycin had scarcely ever before been given for so long a period.

In cases where mild stomach upsets were noted, these reactions were checked by giving the drug with meals, with cream, or with corn syrup, the doctors said.

Transfer Midgley To Wood Mills

William Midgley of High st., resident manager of the closed Shawshen mills, has been transferred to the Wood mills in Lawrence as acting resident manager. He succeeds Christian A. Weissner, who was promoted to divisional manager of all woolen and worsted production of the American Woolen Co., and will be stationed at the Mill street office in Lawrence.

Mr. Midgley had been resident manager of the Shawshen mills since Percy L. Schutt retired in March, 1950. He had been manager of the Fulton mills of the company in Fulton, N.Y., for 12 years before coming here, and before that was superintendent at the National & Providence mills of the company at Providence, R.I.

Down the Years with The Townsman

50 Years Ago - November 1903

A submachine gun has been presented to Phillips academy and has been placed in the gym for the use of the students.

H. F. Chase has a number of fowls entered in the poultry show at Brockton this week.

The Rev. Markham W. Stackpole will conduct services in Frye Village Sunday afternoon.

The N. E. Tel. & Tel. Co., has petitioned the selectmen for permission to erect poles with wires thereon on Elm street from Maple avenue to Walnut avenue. There is considerable opposition among the abutters.

Local firemen held a delightful concert and dance in the town hall Thanksgiving eve. At midnight all adjourned to the fire station for a turkey supper and later returned to the hall and resumed dancing until 1 a.m.

Citizens at the hearing on the petition of the B & N St. Ry. Co., made it clear they want no further privileges granted the company until many concessions are secured. A vote was taken to the effect that if double tracks are going to be laid from the Lawrence line they should go to the square and not stop at Harding street. One citizen said the railway has been a curse to the town, and Ballardvale residents urged that not another favor be granted the company until a track had been laid to the 'Vale. The selectmen reserved their decision.

The North Andover Bluestockings defeated the local Blackstockings 5-0 before a crowd of 2000 Thanksgiving morning. It was one of the hardest football games ever played here. The umpiring of an official from North Andover was a pure and simple case of favoritism for his home team, our correspondent added.

Pynchard closed its season by defeating Methuen 11-5 on Nov. 19. The local lineup: Jewett re., Towne rt., Holt rg., Haggerty c., Gillen lg., Davis lt., Moynihan le., Thompson qb., Butt rhb., Clemons fb., D. Lindsay lhb.

25 Years Ago - November 1928

Through the generosity of Phillips academy cooperating with the board of public works the children of Andover will have a safe place to skate this winter on the meadow just off Morton street near the corner of Chestnut street. The acquisition of valuable ducks and swans at Rabbit's pond has made it necessary to fence in the property, closing to the young people of the town a pond long used for skating. The Verne Jay players assisted by local talent presented a religious drama, "The Glow Unseen," at the Free church before a large audience.

More than 150 members of the November club attended the opening meeting presided over by the new president, Miss Fannie Davis. A woman is only as lovely as her beauty ads. Watch that double chin, girls.

The luncheon was served by club members under the direction of Mrs. Frank L. Brigham.

Colonial pewter is now the vogue and A. F. Rivard, jeweler, is showing it at his store.

The Andover District committee of boy scouts elect the following officers: Burchard E. Horne, chairman; Nathan C. Hamblin, vice chairman; Frank S. McDonald, secretary.

A pretty fall wedding took place Monday when Miss Mary J. Picard of Main street became the bride of Augustine P. Sullivan of Brechin terrace at a nuptial Mass in St. Augustine's church celebrated by the Rev. Charles A. Branton, O.S.A. Miss Ida M. Punchard with a light eleven will be the underdog against Johnson at the Memorial stadium in Lawrence tomorrow. Coach Fred Reil's team is weakened by injuries to two star players.

Bernard M. Kellmurray of Weymouth has been elected by the school committee to be director of guidance in the public schools and teacher of English at Pynchard. He succeeds Edward C. Manning of Wilmington who has entered service.

The local state guard company spent Sunday at the Wakefield range where they fired machine guns, shot guns and revolvers at stationary and bobbing targets.

The Andover Servicemen's fund has sent out over 1200 Christmas packages to the local girls and boys in the armed forces and up to the present time has received over 600 replies that packages have been received.

Sgt. K. Walker Lindsay, son of Mr. and Mrs. Carl N. Lindsay of Salem st., reported by the War department to be missing in action over Germany since Nov. 5. He was crew chief of a Flying Fortress.

Miss Ebba S. Peterson elected master of Andover Grange 183 for the coming year, and Harry A. Wright was elected to serve his 19th term as treasurer.

Andover police set off series of mass arrests of Boston racketeers with the arrest of five men in an auto on the North Reading road by Chief George A. Dane and local officers. As soon as this group was arrested a mass raid resulting in 60 arrests began in Boston, and the biggest cleanup in the history of the state was under way.

NEW BOOKS

The Enchanted Cup, Roberts.
The old story of Tristan who found Isolde in Ireland and yet was compelled to bring her back to his uncle Mark; thrilling scenes of tournaments, the Round Table, King Arthur's court; Lancelot, Guinevere, etc. appear in the pages.

The Marmot Drive, Hersey.
The marmot drive is an occasion covering two summer days in a small Connecticut village where the citizens decide to drive out a pest of marmots from a nearby valley. The force of the story is not in the incident of the marmots but in the human emotions involved.

The Innocent Knights, Buhet.
This is a cleverly told, humorous account of six students, 13 to 16 years of age, who took possession of an old fortress and actually made the draw-bridge work so that they were shut off from the village for ten days. School Atmosphere, boy flavor. Great fun!

The Only Sin, Powers.
When England decided to enlarge her foothold in India 150 years ago she sent Grahame Lynde as confidential agent to check French schemes to take over. It was his task to arrange a mutiny and revolution so that the ruling prince could be replaced with one friendly to Britain. High adventure!

Why Columbus Sailed, Donworth.
A new theory, based on fact that Columbus was well acquainted with the previous explorations by Norsemen, having made a voyage there in 1477.

Birds As Individuals, Howard.
Through her bird-watching in a Sussex village the author has proven that birds are individual in their actions, intelligence and life patterns.

Lelia, The Life Of George Sand, Maurois.
Hitherto unavailable diaries and letters show the true George Sand, and explain her daring, her courage and her defiance of established customs.

Cowhand, Gipson.
The true story of the working cowhand, minus the romance and glamor of the Western story, as told by one of the best in Western Texas; he describes the pleasures and dangers and loneliness, also the satisfactions which make up the work of a real cowhand.

An Epitaph For Love, Clewes.
Harry Lucas had always loved Nina, yet every meeting had been in a period of savage disorder in their worlds. Now, in a communist uprising, they were to meet again in the British consulate in Florence — this time as enemies.

Other new fiction: Two Came By Sea, Stone; Cardboard Crown, Boyd; Best American Short Stories, 1953, Foley; Six Days In Marapore, Scott; Goodbye, Summer, McKay; No Vacation For Maigret, Simenon; Hue And Cry, Yates; A Fair Wind Home, Moore; The Gladiator, Williamson; Love Is A Bridge, Flood.

Abbot Academy

In Davis Hall, at 8:15 p.m., Saturday, Nov. 28, Miss Kate Friskin, Friskin, pianist, member of the music department at Abbot academy, will be heard in a recital which will include the works of Bach, Beethoven, Brahms, Chopin, and a final group of the works of modern composers, de Falla, Ireland, and others.

The Bach composition, which will open the programme is to be Partita in B flat, and the next number will be the Beethoven Sonata in C minor, Op. 13. Three Chopin mazurkas, will follow after a brief intermission, and closing this grouping will be the Brahms Intermezzo in E flat minor, and the Brahms Rhapsody in E flat major. The closing group is made up of the following numbers: Andaluza by de Falla, Chelsea Reach by

No date has been set for the wedding.

Ireland, and A Reel by Stanford — Grainger.

Miss Friskin's recital is one of the most eagerly anticipated events of the fall calendar in this community. Miss Marguerite Hearsey, principal of Abbot academy, takes great pleasure in extending a cordial invitation to music-lovers to attend the recital. Davis Hall doors will open at 7:30 in order that the audience may be seated by 8:15.

GRAVE THOUGHTS

A soldier, after placing some flowers on a grave in a cemetery, noticed an old Chinaman placing a bowl of rice on a near-by grave.

"What time do you expect your friend to come up and eat the rice?" asked the soldier.

The old Chinaman replied, with a smile:

"Same time your friend come up to smell flowers."

Police Chiefs Hold Meeting Here

Members of the Massachusetts Chiefs of Police association met at the Andover Country club Tuesday noon as guests of the chiefs of the police departments of Andover, Lawrence, Methuen and North Andover.

District Attorney Hugh Cregg of Methuen was the guest speaker following the luncheon.

The only person who is happy, though rich, is the person who knew how to be happy while poor.

Do You Know Massachusetts?

The U.S. Department of Agriculture estimates that in July this year the average price per acre of farm land in Massachusetts stood 2.7% less than a year ago, but 11% more than in 1950 and 49% more than in 1940. The number of sales of farm lands was up about 4% over last year.

Massachusetts manufacturers in 1951 had a combined payroll of \$2,495,888,196, as reported to the division of employment security. The five largest broad classifications of industry showed textile mill products \$348,790,804, machinery, except electrical, \$325,644,673, electrical machinery \$272,270,770, leather and leather products \$183,743,505, apparel \$141,131,341.

Boston common was set aside in 1634 for a training field and feeding of cattle. The British troops were quartered there and set out for Lexington from what is now Park square.

The department of agriculture's final crop report shows Massachusetts apple production at 136% above last year's crop and 10% over the 10-year average 1942-1951, corn 3.3% above last year and 1.1% over the 10-year average 1942-1951, potatoes 18.4% above

last year but 35% below the 10-year average, hay 5% above last year, but 2% below the 10-year average, tobacco 13% above last year but 3% under the 10-year average, cranberries 59.6% above last year and 41% above the 10-year average.

Researchful Boston, in the last week of December, will be the world center for news about the latest developments in all branches of science, as reported by New England Council. It has been chosen as the site of the 120th meeting of the American Association for the Advancement of Science and expects nearly 10,000 of the nation's top-flight scientists to attend.

Main Street Work To Start In March

Selectman J. Everett Collins represented the board of selectmen and the board of public works at a hearing before the state department of public works in Boston last week on the relocation of a section of Main street near Phillips academy. The Lawrence Chamber of Commerce was also represented. There was no opposition.

The proposed improvement, which will remove a grass plot from the area and thus eliminate a traffic hazard at Chapel avenue, will consist of a two-lane highway, each 24 feet wide from the end of the present state highway to Wheeler street.

According to present plans work on the project will be started next March and will cost about \$80,000. The local board of public works will raise the sewer manholes and water gates in the area.

SANTA CLAUS PARADE TO OPEN PROGRAM

(Continued from Page One)

Meanwhile, the Legasse Amusement company of Haverhill, which will install the lights, will prepare for the Santa Claus parade with its big line of floats which this year will have two additions. They will also furnish the gnomes and other costumed characters which were one of the features of the parade last year and which appealed to the large number of children who were among the spectators of that event.

In addition to these floats it is expected that the local cooperating merchants will have some of their own floats in the parade and that a number of board of trade members will march at the head of the parade as it comes down Main street.

Other plans are in the making to offer a gala Christmas program here and to present an attractive street parade that will bring many local and out-of-town residents to enjoy this feature.

Thanks, New England ...we've built our millionth Ford

THANKS, NEW ENGLAND, for helping us grow from humble beginnings in a service shop on Columbus Avenue, Boston, to a plant in Somerville that has produced over a million Fords. It is this volume of business which you have given us that enables us to offer you a truly fine car at a low price.

You've helped us build an enterprise which puts into circulation more than 80 million dollars per year in New England. This represents over 30 million dollars in salaries to over 7000 employees of the plant and its 280 dealers... plus over 50 million dollars in purchases by Ford Motor Company from New England industry for Somerville and other Ford plants across the country.

We're proud of the 25 years of experience behind the 400 cars and trucks produced each day by Ford of Somerville. They are built in New England, by New Englanders, for New Englanders.

So you can see why we Ford Dealers are as proud of Ford's vital role in this area's economic life as we are of the fine cars and trucks which we have the privilege of bringing to you.
